

REACH STATEMENT

Titon Hardware Ltd is aware of the requirements of the REACH regulations and it is our understanding that as a downstream supplier of “articles” we have no direct obligation to register for REACH.

We have requested our suppliers to take appropriate action with regard to REACH to ensure there will be no disruption in the supply of materials to manufacture our window and door hardware, trickle ventilators and mechanical ventilation products.

As far as we are aware, none of the materials we currently use in the production of our “articles” is designated as containing a substance of very high concern within the scope of REACH and we do not foresee that the supply of any products is likely to be affected by the implantation of REACH.

Titon will continue to fulfil its role with the requirements of REACH, mainly by conveying information as and when available.
